Our clients deserve a new standard in energy saving products focused on quality service, reliability, responsibility, and innovation. That's why at Dual Fuel, we're committed to redefining energy asset management.

INTEGRATED ENERGY SERVICES

Installation
& Service

Monitoring
& Controls

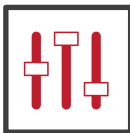

Energy
Supply

MONITORING, SERVICE & CONTROLS

Metering & Monitoring

Remotely monitor a single boiler plant or a portfolio of building energy assets through one dashboard.

Comfort & Control

Maintain reliable occupant comfort while saving on energy consumption.

Advanced Analytics

Track and analyze energy consumption, plant performance, and measure energy savings.

Smart Alarms

User defined alerts to notify you of system failure and efficiency drift.

Proactive Service

MonitorPlus bundles monitoring and service to provide rapid response to resolve issues before they become problems.

Open Platform

Easily integrates with existing control systems to reduce capital costs.

THE DUAL FUEL DIFFERENCE

Improved Operations

Dedicated account managers and portfolio level management enhances your ability to operate your energy assets.

Turnkey solutions for all your energy needs including:

Service, Inspections, Commodity Supply, Compliance, Installation, MonitorPlus

Proactive Service

Resolve issues before they become problems. Dual Fuel is the only company that offers an integrated monitoring and service package for your energy system.

Cost Savings

Dual Fuel has saved its customer millions of dollars on their operating expenses through rebate procurement, energy efficiency retrofits and commodity risk management.

INSTALLATION & SERVICE

Our highly skilled mechanics, plumbers, welders, and steam fitters design, build, and service mechanical systems of any size or complexity. Coupled with our industry leading customer service and project management, Dual Fuel is the one-stop shop for all your installation and service needs.

ENERGY SUPPLY

Dual Fuel's team of industry experts work with our clients to manage their commodity risk. We offer fixed and variable pricing for natural gas, electricity, and oil.
