

Chartwell LAW

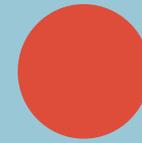

National presence. Boutique experience.

About Chartwell Law

Bold. Creative. Unique. Three words our clients use to describe Chartwell Law. This approach is fundamental to our culture and began with our name. Our founders envisioned a firm built on collaboration and teamwork—one that transcends individual identities—a community where everyone openly contributes unique experiences and ideas and celebrates the differences that make us Chartwell.

Today, having grown to a nationally ranked firm with more than 300 attorneys and legal professionals across 39 offices coast-to-coast, that vision has become a reality. Chartwell prioritizes partnering with our clients to deliver personalized legal services, focused on efficiently obtaining the best possible results on behalf of our clients.

Creating A Sustainable Alliance

We tailor our client service approach to each client's needs and goals – recognizing that each is a unique organization with evolving priorities. Our team focuses on delivering results-driven, responsive, and collaborative support. We will invest non-billable time into learning the client's business, goals, and priorities to align Chartwell with your organization.

Clients can expect a service approach tailored to your unique goals and needs. We will take the time to consult with you on the front-end of a new matter to fully understand your goals, expectations, and communication preferences in order to develop a strategic path that best aligns with your interests. You can expect a Chartwell team willing to work with the client's team, including TPAs and adjusters to ensure you have a positive experience.

We support our clients in their ongoing professionalism initiatives by sharing valuable lessons learned. Through continuing education seminars and webinars, we ensure your team stays up to date on emerging issues. These sessions can cover legal updates, practical skill development, or other topics tailored to your team's specific needs.
