Virtual Doorman[®]

Where Personalized Service
Meets Modern Technology

Virtual Doorman[®] is a registered trademark of Virtual Service

WE INVENTED VIRTUAL DOORMAN®

We were the first to market and launched the *remote doorman* industry with our innovative system. Now we have taken the industry to a whole new level.

- Advanced software and hardware not available from any other provider
- Unparalleled customer service
- Most professional, skilled operators
- Sophisticated Interactive Web Portal™
- Personalized service for every resident
- Solutions for every building and every budget

What our Customers are Saying:

"We manage over 150 buildings in the NYC area... Virtual Doorman makes both my tenants' lives and my job that much easier... On all counts: quality of service, response time, personnel, system design, quality of equipment and quality of installation, Virtual Doorman ranks superior."

"It's the little things that Virtual Doorman does that makes it a great company."

"...your Virtual Doorman service has been a huge help in my daily life. It's been invaluable in handling my many weekly deliveries and I appreciate the safety factor."

"I am absolutely loving my new home and the Virtual Doorman is at the top of the list of reasons why I feel so comfortable there."

"You guys have a great product and, from a developer's standpoint, a product that is affordable to install. Well done and we look forward to future features!"

"I just want to thank you for the excellent job that you and your company did for me. The Virtual Doorman is everything you said it would be. No issues, no problems, just pure virtual bliss. The tenants love it and it has been a great marketing point."

We Revolutionized Building Security. More than 10 years ago, Virtual Doorman® was the first to provide 24/7 doorman services from an off-site command center staffed with highly trained operators. At 10% of the cost of a doorman, this amazing system secures the building, greets visitors and provides access, accepts deliveries, facilitates maintenance and service calls and provides peace of mind. Your building deserves the highest quality service and technology. Don't trust your building's security and residents' peace of mind to just anyone.

We've Spent More Than 10 Years Perfecting Our System and Our Service. We are continually expanding our capabilities to better serve our customers. We offer the most sophisticated system, featuring our proprietary Interactive Web Portal™ that streamlines communications between residents, building managers and our Command Center, providing personalized service for every resident. Our innovative software also allows residents to manage their preferences and account online from anywhere in the world.

Now Every Building Can Afford a Doorman 24/7. Virtual Doorman is now at work all over New York, New Jersey and the Tri-State Area...and expanding every week. Regardless of the size of your building and the level of personalized service you require, we have a solution for every building and every budget. A lot more buildings can now afford a doorman.
