

PROTECTING YOUR PEACE OF MIND

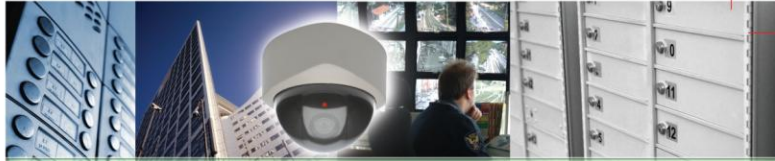

Property owners, tenants and businesses work very hard to earn and maintain their assets while protecting them from harm or loss by the many potential threats of an uncertain world. **ADVANCE SECURITY AND INTERCOMS (ASI)** arms you with state-of-the-art equipment and the latest technologies that brings absolute peace-of-mind when you need it most!

ASI professionals are dedicated to delivering the highest standards in safeguarding of commercial and residential facilities. We provide our clients with complete and comprehensive solutions for all your security needs. ASI is an authorized dealer of all major hardware brands in the industry. Our installers are highly trained and experienced in every possible situation to fulfill your security upgrade requests efficiently and with little or no disruption to your current day-to-day traffic.

PREVENTION

Your smartest and most cost-effective weapon against the many unpredictable threats or personal harm is to prevent them from happening. Safeguard your privacy and your well being to avoid being a victim. Today's security technology advancements have turned the tides to your advantage- giving you the widest variety of options and the most powerful tools to screen, monitor and keep unwanted intruders away. With ASI, prevention is the most cost-effective measure to ensuring a safe and worry-free environment.

KEEPING A WATCHFUL EYE WITH ASI SURVEILLANCE SYSTEMS

Investing in modern security and surveillance systems lets you stay on top of your property with 24-7 availability to monitor all areas from any location and at your convenience. When it comes to complete coverage, ASI puts you in the drivers' seat. Now you too can have eyes everywhere you need them. ASI can install industry grade cameras and HD surveillance systems anywhere in your property for instant monitoring- the way you want it.

Our team installs only the most reliable hardware in the industry to supply your entire facility at the best prices available and usually within the same business day. We offer both indoor and outdoor cameras ranging from a variety of functions and are designed to withstand environmental conditions. Choose from a wide selection of specialized equipment available from: Dome Cameras, Box Cameras, (PTZ) Pan-Tilt-Zoom heads, Covert Monitoring systems and Vandal Proof hardware.

KEYLESS DOOR ACCESS

Card access, keyfobs & keypads

Today's security starts with improving door entry access. Where metal keys and conventional tumbler locks are now considered old technology (carrying limited protection from intruders), step into the modern age of protection with ASI's personal keyless door access systems. Keyless access comes in an array of options from keypad entry, keyfobs and card access. These solutions provide you complete control in programming (and re-programming) your combination. Keyless doors always lock but never lock you out.

INTERCOM SYSTEMS

For commercial and residential dwellings, ASI is the most trusted name in AUDIO and VIDEO intercom installations. Call on ASI intercoms for the most current state of the art devices with advanced sound quality and reliable connections.

For added security and interactivity, advance to the many vital benefits of our modern video intercoms that show a frontal view of your visitors. ASI Video intercoms allow you a complete audio-visual screening experience for complete identification and optimal privacy. Choose from our wide variety of styles and models- from desktop phone and wall intercoms equipped with Hi-Definition LCD imaging.
