

# About EASCO

Founded in 1926, EASCO is celebrating its 95th year in existence. This 4th generation family-owned and operated business employs over 60 people and is committed to remaining a vital member of the business community in the South Bronx, NY.

EASCO maintains a high standard of product and service excellence, as is evidenced by the fact that its longest standing client relationship spans over 40 years.

EASCO is known for its expertise in custom designed, field-erected boilers and it has one of the fastest production turn-around times in the industry. EASCO products are built to last.

## Meet the EASCO Team

*EASCO is certified by NYC, NYS and PANY/NJ as a MBE. It is the oldest minority owned and operated steel boiler and tank manufacturer in the country.*
