

# HERE COMES SOLAR

## Non-profit Technical Assistance and Consumer Advocacy for Cost-effective Solar Installations

Buildings in NYC are installing solar because it's an investment that pays. Work with our team to plan a cost-effective solar project and select the most competitive, qualified installer.

### Solar Feasibility

Our team assesses your property's solar viability with an onsite assessment and financial analysis.

### Competitive Bids

With our custom online platform, installers bid on your project and offer prices 10-20% below market value.

### Trusted Installers

Pre-qualified, NYSERDA registered contractors with years of NYC solar project experience.

### Consumer Advocacy

Your ally from beginning to end, advocating for the best prices and quality until project completion.
