

QUANTUM® PLATINUM CONTROL COMMERCIAL WASHERS & DRYERS

 **Speed Queen.** MULTI-HOUSING

DEDICATED TO SETTING NEW STANDARDS

We are the world's largest commercial laundry company, with an undeniable history of proven performance and reliability. Property owners rely on the practical ingenuity of features designed to make their lives simpler and more productive. Our commercial-grade construction is rugged, dependable and built to last.

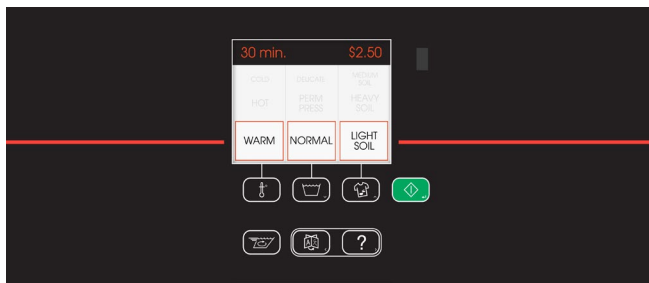

As the commercial laundry industry leader, our valuable network of authorized laundry service providers is in place to provide you with the time and attention you deserve. Your local laundry service provider can assist you with laundry solutions for your property, including a space saving design, cost efficient equipment and business control systems.

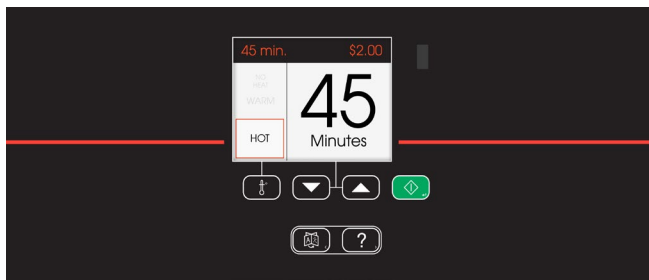

QUANTUM® PLATINUM CONTROLS

The Next Level in Laundry Control

A full-color, multi-language display, special "Speed Cycle," and easy-to-use premium cycle upgrades provide your residents with a convenient, satisfying laundry experience, making your on-site laundry their first choice.

Quantum® Platinum Washer Control

Quantum® Platinum Dryer Control

Customizable

From durable towels to delicate silks, a full range of premium cycle upgrades, communicated through a large graphical display and easy-to-read icons, allow residents to modify their experience based on specific needs.

Flexibility

Residents can check the status of their laundry, see which washers or dryers are available and even receive email or text notifications when their laundry is done. Plus, with Speed Cycle, they can wash clothes on their time without waiting for a full cycle.

Better laundry management

Advanced analytics and diagnostics alert your laundry service provider to potential problems, minimizing downtime.

BUILT FOR RELIABLE PERFORMANCE

FRONT LOAD WASHER

With revolutionary balancing technology, virtually imperceptible noise and vibration, incredible 440 G-Force extraction and a redesigned, 10-degree tilted control panel, Speed Queen front load washers are engineered and built to be everything you never knew they could be.

- Revolutionary balancing technology redistributes and balances even the most unbalanced loads.
- 2.5 times less noise and virtually imperceptible vibration reduce impact on neighboring residents.
- Increased 440 G-Force extraction speed reduces drying times.
- 20% increase in capacity with improved water usage for maximum efficiency.
- Durably designed to deliver long-lasting performance with features like a rugged suspension system, stainless steel wash tub and a dynamic balancing system.

SINGLE LOAD DRYER

With an easy-to-clean large lint compartment and a reversible door to accommodate your laundry design, Speed Queen single dryers are designed to suit any laundry's specific needs. The 2.06 sq. ft. door opening is the largest in the industry, providing easy loading and unloading for residents.

- Durable galvanized steel cylinder with an extra-large 7.0 cu. ft. capacity.
- Quiet, efficient blower system.
- Secured and easy to clean upfront lint filter.
- Front access for easy serviceability.

45-DEGREE TILTED CONTROL PANEL

Speed Queen offers front load washer and dryer prep for card control panels that are angled at 45 degrees up toward the user's line of sight, allowing for easy readability without the need to bend down — a small change that makes a big impact on residents.

TOP LOAD WASHER

Speed Queen top load washers are constructed from heavy-duty components to ensure an extended life, including a stainless steel wash tub, all-metal transmission and a commercial-grade cabinet finish.

- Commercial-grade stainless steel wash tub standard.
- Curved four-vane agitator delivers an industry-best 210° wash stroke that produces unparalleled cleaning results.
- Extract speed of 710 RPM spins clothes out drier.
- Advanced suspension system eliminates the possibility of an unbalanced load issue.

STACK WASHER/DRYER

Speed Queen's stack washer/dryers are designed to provide all of the power of Speed Queen washers and dryers while occupying only half of the floor space of a conventional washer and dryer setup.

- Utilize the same connections and hook-ups required by a standard washer and dryer.
- Revolutionary balancing technology automatically redistributes even the most unbalanced loads for consistent cycle times, minimized vibration and reduced noise.
- Increased 440 G-Force extraction speed reduces drying times.
- 20% increase in capacity with improved water usage for improved efficiency.
- Durable galvanized steel dryer cylinder.
- Easy-to-clean and secure upfront lint filter.

STACK DRYER

Get twice the drying capacity in the compact floor space of a single dryer with Speed Queen stack dryers. Combined with extra capacity for large loads, the stack dryer gets the maximum amount of work done without breaking the bank -- or your laundry design.

- Extra large capacity, 7.0 cu. ft. per dryer.
- 2.06 sq. ft. door opening is the largest in the industry, providing easy loading and unloading.
- 10-degree tilted control panel allows control visibility without bending down, improving the customer experience.
- Quiet, efficient blower system.
- Secured and easy to clean upfront lint filter.
