

We speed up your recovery time  
& increase your claim settlement!

## Complex Commercial & Residential Property Insurance Adjusters

### What Is A Public Adjuster ?

A public insurance adjuster is licensed by the Department of Financial Services and hired by you to help settle property insurance claims on your behalf. Public insurance adjusters handle a variety of commercial and residential insurance claims, including:

100 Million In  
Claim Settlements  
Across the USA!

FIRE

WATER

CONSTRUCTION

WIND

SNOW

MOLD

HURRICANE

FLOOD

BURST PIPES

TORNADO

Although insurance companies have available adjusters for you to speak to (independent and staff adjusters), they typically have the insurance company's interests in mind—not yours. Only a public insurance adjuster can legally represent YOU! **We do not get paid unless we settle the claim, you have nothing to lose!**

### When To Call A Public Insurance Adjuster:

- The claim is complex, and you just don't have the knowledge/time to submit a claim.
- The insurance company is not moving quickly to get you money for recovery.
- Your property suffered building and personal property damages or loss of income.
- You need an advocate on your side to get you a fair and equitable settlement.
- The insurance company denied your claim.
- The insurance company unfairly underpaid your claim.

### Why You Need An Adjuster:

- Faster Insurance Recovery
- Maximum Compensation
- Protection of Your Rights
- No Insurance Headaches!

The insurance company has their experts, who's protecting your best interests?

## Six Figure Claim Specialists!

### Residential Claim Expertise:

Your home is your most valuable asset. When disaster strikes, your entire life is turned upside down. At United Public Adjusters, we believe no one should tread that journey alone. Our expert public adjusters are always on your side.

While a public adjuster can't undo the damage, they can step into your shoes and take over dealing with the insurance company. We'll make sure you receive the maximum amount possible from your claim, in the least time.

Our expertise in valuing your home and its contents ensures your claim is presented in the best possible light. We handle all aspects of the claim, including inspection of the damage, inventory valuation which compares apples to apples, assistance with temporary housing, recouping rent if your tenants are displaced from your rental property, negotiation of the claim on your behalf and settlement in your favor.

### Commercial Claim Expertise:

When commercial property damage strikes, destruction of business property may set your profitability back – or worse, cease all business activity. How do you cover your losses when your business can't operate?

Carriers will often scrutinize claims for payment. Insurance policy terms can be confusing and employees are depending on their checks. On top of all this, you're facing the stress of getting damages repaired and your operation back up and running.

With the complexity of claims, and the scrutinizing over documented losses, a public adjuster not only helps prepare claims documents, but also negotiates and manages the business interruption insurance claim from beginning to end, including building damage, business personal property damage, and loss of income. Adjusters have the expertise and experience to guide business owners through the process, helping your business to get back on track in minimal time.

## We handle all aspects of complex property damage insurance claims.

COMMERCIAL | BUSINESSES | INSTITUTIONS | RESIDENTIAL

### We Serve:

Building Owners  
Condo Associations

Co-Ops  
Facility Directors

Homeowners  
Property Managers
